Enterprise-class Cloud Backup Services

POWERED BY

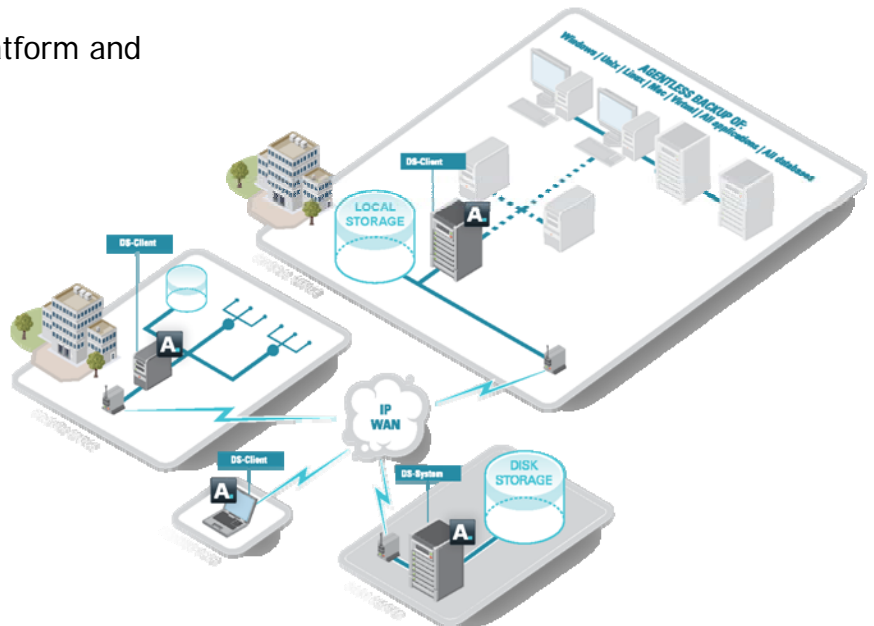

Asigra.

Managecast is passionate about fully protecting your critical data to ensure business can continue in the event of a disaster. Our goal is to free you to strategically focus on your business without the headache and stress associated with safe-guarding your data.

Founded in 2000, Managecast Technologies, Inc., headquartered near Cincinnati, Ohio, specializes in backup and disaster recovery solutions for businesses of all sizes, from the largest enterprise, to the one person office and anywhere in between. Whether you wish to build your own private cloud, or leverage our extensive investment in cloud infrastructure and expertise, we can meet your backup and recovery needs.

Powered by Asigra, our capabilities include:

- Build your own private cloud or securely host with us in HIPAA, SSAE 16, SOX, and PCI compliant data centers
- Level 1 and Level 2 Asigra support certification
- Focused on customers with compliance requirements
- AES 256-bit encryption ensures data stays private
- Fully managed backup services
- Support backups of virtually any platform and application
 - Microsoft Windows Servers
 - Microsoft Exchange
 - Microsoft SQL Server
 - Microsoft Sharepoint
 - Windows XP, Windows 7, Windows Vista
 - VMWare
 - Mac OS X
 - Linux/Unix (Redhat, Suse, Sun, others)
 - Oracle
 - IBM iSeries
 - Lotus Notes
 - NetWare & GroupWise
 - Not listed? Just ask!
- Advanced features such as: Continuous Data Protection (CDP) and De-duplication
- Backup Lifecycle Management – Aligning cost to backup data with the value of data
- Outsource your backups to us, or let us support your in-house system

Cloud Ready!

For more than 25 years Asigra has stayed ahead of the market with a secure, agentless, scalable and automated backup and recovery solution that aligns the value of data with its storage costs. IT Leaders evolve their environment, without being constrained by their recurring backup challenges, with innovative solutions from Asigra that currently protect over 250,000 sites worldwide.

Related Managecast DR/Business Continuity Services

Backups are a critical component of a comprehensive disaster recovery plan, but we don't stop there. We have complementary services from leading partners that further enhance business continuity for the most demanding customers.

Other services we provide are:

Managecast is a VMware Enterprise Partner providing enhanced virtualization specialties, such as:

vMotion – automatic fail-over and high-availability for virtual servers

VMware Site Recovery Manager – enabling fail-over of virtual servers to hot-sites

Managecast is an HP Storage partner and we can help replicate your SAN data to remote locations, hot-sites, perform snap shots, and more.

We have partnered with Peak 10 to offer world-class co-location and hot-site facilities to our customers. Peak 10 is fully HIPAA, SSAE 16, SOX, and PCI compliant. Data center locations include Atlanta, Charlotte, Cincinnati, Jacksonville, Louisville, Nashville, Raleigh, Richmond, South Florida, and Tampa.

Managecast is fully committed to providing the highest levels of service and customer satisfaction.
