

Veeam Backup for Microsoft 365

Total access, control and protection of Microsoft 365 data

Microsoft provides a wide array of powerful services within Microsoft 365, but a comprehensive backup of your Microsoft 365 data is not one of them.

Veeam® Backup for Microsoft 365 eliminates the risk of losing access and control over your Microsoft 365 data, including Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams, so that your data is always protected and accessible.

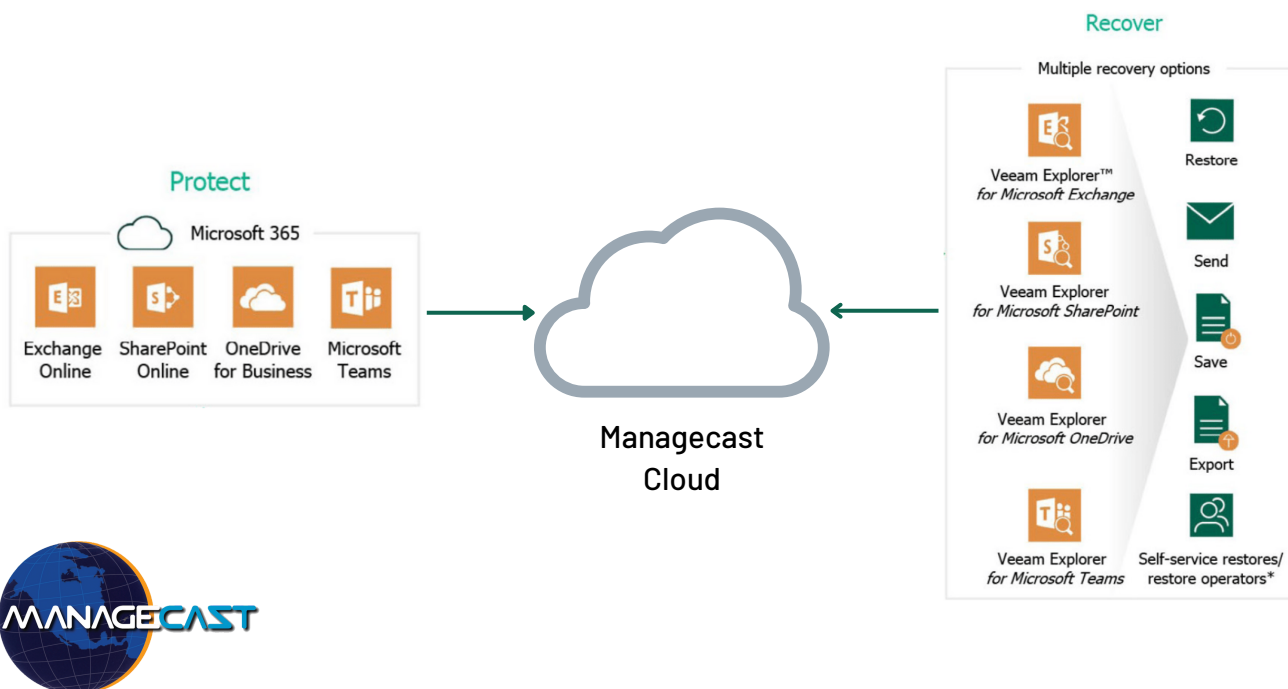

With Microsoft 365, it's your data

Microsoft 365 enables your enterprise to work anywhere and anytime without needing to host your own email, files and content management infrastructure. Even though Microsoft hosts the infrastructure, this doesn't replace your responsibility to maintain a backup of your business-critical Microsoft 365 data.

With Microsoft 365, it's your data - you control it - and it is your responsibility to protect it.

With Veeam Backup for Microsoft 365, you can:

- Protect your Microsoft 365 data from accidental (or intentional) deletion, security threats and retention policy gaps
- Quickly restore individual Microsoft 365 items and files with industry-leading recovery flexibility
- Meet legal and compliance requirements with efficient Discovery of Microsoft 365 backup items

Back up Microsoft 365 in the Cloud

- Retrieve Microsoft 365 Exchange Online, Sharepoint Online, OneDrive for Business and Microsoft Teams data from a cloud-based instance of Microsoft 365.
- Store backups in the cloud.
- Protect Microsoft Teams data with purpose-built backups, including entire teams, specific channels and settings.

Restore Microsoft 365 with industry-leading recovery flexibility

Never settle for less than reliable, granular restore of Microsoft 365 email items, SharePoint sites documents, libraries and lists, as well as OneDrive for Business accounts, files and folders in a few simple clicks.

- Quick search and granular recovery of individual objects – including Microsoft Teams data – residing in a protected copy of your Microsoft 365 backup.
- Direct restore of Microsoft 365 items through an industry-leading number of ways, giving you ultimate restore flexibility.

eDiscovery of Microsoft 365 data

Without an easily accessible copy of your data, retrieving emails for regulatory or compliance reasons can be costly, time-consuming and a major disruption to your business.

With Veeam, you can leverage the familiar advanced search capabilities and flexible recovery and export options to perform eDiscovery on Office 365 data just as easily as you would with a traditional on-premises data backup.

"Get Veeam Backup for MS 365 – your boss will love you!"

"Cloud services have flaws, and it is ultimately the sys admin's responsibility to ensure data is safe. Veeam backup for MS 365 does exactly what it says on the box, by allowing the administrator to take control of their data."

- IT Administrator

1001-5000 employees

Meet security and compliance requirements

Security and compliance concerns are big drivers for the need to back up Microsoft 365.

- Store data based on long-term retention policies for regulatory or compliance needs.
- Ensure you recover exactly what you need – no more, no less – with granular advanced search and find functionalities.
- Increase security for Microsoft 365 backup data with multi-factor authentication.

Efficiently scale and minimize overhead

Unmatched scalability with a multi-repository, multi-tenant architecture. Enjoy comprehensive automation with full PowerShell and RESTful API support, as well as self-service restore for service provider's customers.

Manage hybrid Microsoft 365 environments

Veeam Backup for Microsoft 365 also allows you to protect hybrid email and SharePoint deployments, as well as migrate mailbox data between on-premises Exchange and Microsoft 365 environments.
