

Managecast Technologies

Enterprise-Class Cloud Backup Services

About

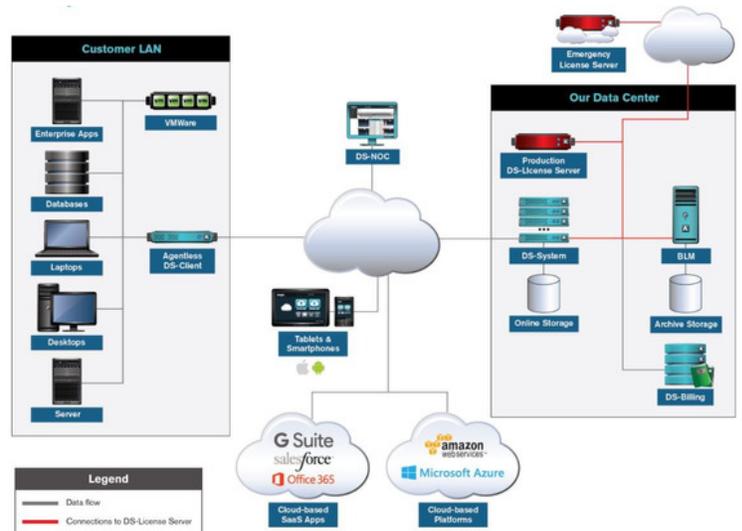

Founded in 2000 in Cincinnati, Ohio, Managecast Technologies specializes in cloud backup and disaster recovery solutions for businesses of all sizes - from the largest enterprise to the one-person office and anywhere in between. Managecast also provides Disaster Recovery as a Service (DRaaS) and Business Continuity Planning.

We are passionate about fully protecting your critical data to ensure your business can continue in the event of a disaster. We monitor and proactively manage your backups with the goal of setting you free to strategically focus on your business, without the headache and stress associated with safe-guarding your data.

Powered By Asigra

Our Capabilities Include:

- Build your own private cloud, or securely host with us in HIPPA, SSAE 18, SOX and PCI certified data centers
